Dr. Moo Hwan Kim, President
Korea Institute of Nuclear Safety
62 Gwahak-ro, Yuseong-gu
Daejeon 305-338
Republic of Korea

Dear Dr. Kim,

I write to extend my sincere gratitude to you and your staff for arranging a very beneficial visit to the Korea Institute of Nuclear Safety (KINS) on April 10, 2015. The U.S. Nuclear Regulatory Commission (NRC) delegation and I personally found the presentations of ATOMCARE and the APR1400 simulator extremely impressive. As has been our experience over the past 25 years, our interactions with staff and managers at KINS was very beneficial and informative for our cooperative programs. Our understanding of the vast responsibilities and activities at KINS was greatly enhanced and I am confident that we will continue to work closely with you and the NSSC to strengthen nuclear safety worldwide.

In addition to the insightful discussions, our delegation truly appreciated KINS' kind hospitality in Daejeon. Thank you for facilitating the transportation logistics of our visit to the Korea Atomic Energy Research Institute. I also want to thank you for the kind letter of April 14, 2015. We look forward to our continued strong collaboration and I hope to have the opportunity to welcome you to the United States in the near future.

Sincerely,

/RA/

Michael R. Johnson
Deputy Executive Director for Reactor
and Preparedness Programs
Office of the Executive Director for Operations
