Brattleboro, VT 05301

SUBJECT: R.O.V. TECHNOLOGIES, INC., ACCEPTANCE OF NOTIFICATION OF  
CHANGE OF CONTROL, CONTROL NO. 586439

Dear Mr. Judge:

This is in reference to your letter dated March 27, 2015 (Agencywide Documents and Access Management System (ADAMS) Accession No. ML15097A383), notifying the NRC that you completed the sale of R.O.V. Technologies, Inc. to R. Brooks Associates, Inc. (d/b/a) Rolls-Royce on Friday, March 27, 2015. The NRC accepts this notification and has no further questions at this time.

According to telephone conversations with Ms. Sue Brooks, R. Brooks Associates, Inc., on April 14, 2015, and with Mr. Glenn Roberts, consultant, on April 16, 2015, it is our understanding that you are maintaining your current financial instrument without any changes. If you determine that changes in your current financial instrument are required, you must submit the revised financial instrument to the Commission for review and approval. Examples of such changes are: mergers or reorganizations resulting in the change of the licensee's or the bank's name, name of the signatory, and the amount of the instrument. If you change the type of financial instrument or change financial institutions, the Commission will hold the current financial instrument in force until the new instrument is reviewed and approved in writing. The Decommissioning Funding Plan must be revised every three years as well as upon renewal of the license and submitted to the Commission for review and approval. Please follow the guidance in NUREG-1757, Vol. 3, "Consolidated NMSS Decommissioning Guidance: Financial Assurance, Recordkeeping, and Timeliness", Part II: Financial Assurance.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Please feel free to contact me if you have any questions.

Sincerely,

***Original signed by Laurie A. Kauffman***
