Good Morning Jeremy,

After discussing this with our RSO, we do not plan on renewing our Part 71 QAP Approval.

Thank you very much

Good morning Guy

Since it's been some time since we last talked, I wanted to touch base with you to see whether you plan to renew your Part 71 QAP Approval or not since it has expired? If you don't plan to renew it, we will need to send you a letter to officially terminate it and close the loop. If you do plan to renew it, a letter requesting that needs to be sent to us and I'd be happy to discuss that process with you if you'd like.

Please note that since your Part 71 QAP Approval is currently expired, you are not allowed at this time to perform any shipping activities that require a Part 71 QAP Approval.

Any questions, please let me know.

Thanks,

Jeremy Tapp
