Ron:

On December 31, 2014, Crow Butte sent for NRC staff review, the Quality Assurance Program used at Crow Butte. Upon further review of this program, Crow Butte staff has made some minor changes to the document to clarify that all samples taken for compliance to Reg. Guide 4.14 are submitted to an independent third party accredited laboratory. This has always been the practice at Crow Butte and will continue to be the practice. Attached are the redline changes and revision #1 to the Quality Assurance Program.
