Dear Ms. Cook:

We would like to request an amendment to our NRC Materials License #40-26865-01 (Docket # 030-29708) to remove the storage authorization for a sealed source that was originally for 10CFR35.500 uses. This Gadolinium-153 source is listed in Items 6-9 line D in our license. This source was enrolled in the SCATR program managed by the CRCPD (Conference of Radiation Control Program Directors) and was transferred from our facility on April 30, 2014 for disposal under that program. We will maintain for inspection the disposal records from Bionomics, the waste broker contracted by the SCATR program.
