### Environmental Issues

3. FSEIS Supplement. As stated previously, the Staff intends to issue a second supplement to the Final Supplemental Environmental Impact Statement (“FSEIS”) for license renewal of IP2 and IP3,<sup>11</sup> which will address new information received by the Staff since preparation and publication of the previous FSEIS Supplement (FSEIS Vol. 4) in June 2013. The matters to be addressed in this FSEIS supplement include the Applicant’s May 6, 2013 submittal of revised engineering project cost information for severe accident mitigation alternatives (“SAMAs”); Entergy’s February 19, 2014 submittal of new aquatic impact information; the June 2013 revision of 10 C.F.R. Part 51, Table B-1, and the Generic Environmental Impact Statement (“GEIS”) for license renewal;<sup>12</sup> and the September 2014

The Staff expects to issue the Draft FSEIS Supplement in July 2015 and the Final FSEIS Supplement in March 2016.<sup>14</sup>

4. Contention NYS-35/36. On July 14, 2011, the Board issued LBP-11-17, granting summary disposition on Contention NYS-35/36 (Cost-Beneficial SAMAs) in favor of New York.<sup>15</sup> On February 18, 2015, the Commission granted the Staff and Entergy's petitions for review of the Board's rulings on Contention NYS-35/36, and instructed the Staff to respond to four questions related thereto.<sup>16</sup> In accordance with the Commission's Order, the Staff filed its response on March 30, 2015;<sup>17</sup> reply briefs are due by May 11, 2015.

On May 7, 2013, the Applicant notified the Board that it had submitted a letter to the Staff (NL-13-075), reporting the results of its completed engineering project cost estimates for Severe Accident Mitigation Alternatives ("SAMAs") that previously had been identified as potentially cost-beneficial.<sup>18</sup> The Applicant noted, *inter alia*, that it was submitting the information "to support resolution of certain issues identified by the Board" in LBP-11-17. On March 9, 2015, the Commission issued a Memorandum and Order (CLI-15-6) resolving the Staff's, Entergy's and Hudson River Sloop Clearwater's petitions for review of other portions of LBP-13-13. See *Entergy Nuclear Operations, Inc. (Indian Point Nuclear Generating Units 2 and 3)*, CLI-15-6, 81 NRC \_\_\_\_ (Mar. 9, 2015) (slip op.) Commission granted New York's petition for review and directed the parties to respond to eight related questions.<sup>25</sup> In accordance with the Commission's Order, initial briefs were filed by the Staff, Entergy, New York, and the State of Connecticut on March 30, 2015; reply briefs were filed by the Staff, Entergy and New York on April 29, 2015.

6. CZMA Issues. To the best of the Staff's knowledge, information and belief, the current status of CZMA-related issues is as follows.

(a) *Previous Reviews*. On June 12, 2013, the Board denied the Applicant's and New York's motions seeking the entry of a declaratory order regarding Entergy's claim that New York had previously conducted a review of IP2/IP3 for consistency with the New York State Coastal Management Program ("CMP"), such that no further review is required under the Coastal Zone Management Act ("CZMA").<sup>26</sup> The Board left open the possibility that the motions might be re-filed after consultations between the Staff and New York pursuant to 15 C.F.R. § 930.51(e). The Staff has since engaged in consultations with the New York State Department of State ("NYSDOS") and the Applicant. On December 6, 2013, the Staff transmitted a request for information to NYSDOS regarding prior reviews of Indian Point's consistency with the New York State Coastal Management Program.<sup>27</sup> A series of written and oral communications

between the Staff and NYSDOS occurred,<sup>28</sup> and on May 30, 2014, NYSDOS provided its response to the Staff.<sup>29</sup> On July 15, 2014, Entergy submitted its views regarding the NYSDOS response,<sup>30</sup> to which NYSDOS replied on July 25, 2014.<sup>31</sup> Entergy and New York submitted additional correspondence to the Staff on November 25 and December 3, 2014, respectively.<sup>32</sup> The Staff will provide further information to the Board regarding this matter when available.

(b) *Grandfathering*. On December 11, 2014, the State of New York Supreme Court, Appellate Division, Third Judicial Department, reversed the Supreme Court's December 2013 decision, and held (in a 5-0 decision) that Indian Point Units 2 and 3 were "grandfathered" under New York's Coastal Management Program and are therefore exempt from consistency review under the CMP.<sup>33</sup> On April 6, 2015, New York filed a motion before the New York Court of Appeals, seeking leave to appeal the Appellate Division's decision.

(c) *2012 Consistency Certification.* On December 17, 2012, Entergy filed a certification with the NYSDOS, asserting that license renewal of IP2/IP3 is consistent with the New York CMP; NYSDOS then commenced a review of that consistency certification. On November 5, 2014, Entergy submitted a letter to NYSDOS, stating that it was withdrawing its consistency determination, subject to resubmittal following issuance of the Staff's Final FSEIS Supplement in March 2016.<sup>34</sup> In response, NYSDOS stated that the withdrawal was not effective and it offered Entergy an opportunity to request a stay of NYSDOS's decision;<sup>35</sup> Entergy replied to NYSDOS on December 1, 2014.<sup>36</sup> NYSDOS and Entergy have entered into an agreement deferring New York's review of Entergy's consistency certification until June 30, 2015; absent any extension, NYSDOS indicated it will issue its consistency determination by July 7, 2015.<sup>37</sup>

7. Aquatic Impacts. There has been no change in this item since the Staff filed its previous status report. As stated previously, on February 19, 2014, Entergy submitted new information to the Staff regarding the impacts of plant operation on various aquatic species in the Hudson River,<sup>38</sup> modifying the information that had been evaluated in the FSEIS and FSEIS

The Staff will provide further information to the Board regarding this issue when available.

8. Endangered and Threatened Species. On April 2, 2015, the U.S. Fish and Wildlife Service published a final rule listing the northern long-eared bat as threatened throughout its range, which includes the Indian Point site.<sup>44</sup> On April 22, 2015, the Staff transmitted RAIs to Entergy concerning the northern long-eared bat; Entergy's response is expected on June 8, 2015.<sup>45</sup>
