

20.0 Question and Response Guide

The information in this chapter of the reference ABWR DCD, including all subsections, appendices, tables, and figures, is incorporated by reference. The information in this chapter of the reference ABWR DCD consists of historical responses by GE Nuclear Energy to NRC requests for additional information (RAI). The other chapters of this Final Safety Analysis Report contain the current information that is applicable to STP Units 3 and 4, including departures from the reference ABWR DCD.
