**ATTACHED ARE SLIDES/HANDOUTS
WHICH WERE PRESENTED AT THE
PROBABALISTIC SAFETY ASSESSMENT 2015
CONFERENCE**

Safety-Security Risk-Informed Decision-Making

Perspectives of a Probabilistic Risk Analyst

Donnie Harrison

Senior Technical Advisor for Probabilistic Risk Assessment

Division of Safety Systems and Risk Assessment

Office of New Reactors

U.S. Nuclear Regulatory Commission

United States Nuclear Regulatory Commission

Protecting People and the Environment

Institute of Nuclear Materials Management

Risk Analyst Perspective

Fundamentally Same Goal

Protect Public Safety

Details/Objectives of Achieving that Goal Can Differ

Are Layers of Defense and Defense-in-Depth the same thing?

- * Prevention and Mitigation
- * Redundancy and Diversity

Risk Analyst Perspective

What's the Problem?

Sometimes they work in concert

- * Security strategies that support plant safety – and vice versa – and thus public safety

Sometimes they work in conflict

- * Security strategies that negatively impact plant safety – and vice versa – and thus negatively impact public safety

How do these similar, but different aspects play out?

Bottomline

Communicate

Need to Build Relationships

- * Strive to include and understand each other

Need to Share Information and Needs

- * We are one team
- * Striving for a common goal
- * We can help each other
- * We need help from each other

Need to Breakdown Communication/Philosophical Barriers
