P R O C E E D I N G S

[11:30 a.m.]

CHAIRMAN JACKSON: Good morning, ladies and gentlemen. This is an affirmation session. We have two items to come before us this morning. Before I ask the Secretary to lead us through the items for affirmation, do any of my colleagues have any opening comments they wish to make? I know there may be some follow-on comments.

Madam Secretary, please proceed.

MS. VIETTI-COOK: The first item is the Commission is being asked to act on a Memorandum and Order in response to a petition for review of the antitrust issues in the license transfer application for the Wolf Creek Nuclear Power Reactor.

The Commission has voted to approve a Memorandum and Order with the attached changes which rejects the pending hearing request. It also directs the NRC staff to initiate a rulemaking to remove any implication in current rules that the NRC would conduct antitrust reviews of license transfers.

Further, the order solicits the parties' views on how best to handle the Wolf Creek license conditions and gives non-parties an opportunity to comment.

Would you please affirm your votes.

[Chorus of ayes.]

1 MS. VIETTI-COOK: For the second item I would like
2 to request your vote to hold an affirmation on the final
3 revision to 10 CFR 50.65 to require licensees to perform
4 assessments before performing maintenance on short notice.

5 [Chorus of ayes.]

6 COMMISSIONER DIAZ: No.

7 MS. VIETTI-COOK: I will just reflect that a
8 majority of the Commission has agreed to go forward.

9 The Commission is being asked to act on a final
10 rule amending 10 CFR 50.65 to require that power reactor
11 licensees before performing maintenance assessment and
12 manage the increase in risk that may result from the
13 maintenance activities. The Commission, with Chairman
14 Jackson and Commissioners Dicus, McGaffigan and Merrifield
15 agreeing, has voted to approve the publication and
16 implementation of this final rule subject to the changes in
17 the attachment.

18 Commissioner Diaz disapproved the rulemaking,
19 believing that it was no longer necessary to ensure
20 licensees are performing adequate safety assessments and
21 that for the purposes of risk-informing the rule it should
22 be issued for public comments.

23 Would you please affirm your votes.

24 [Chorus of ayes.]

25 COMMISSIONER DIAZ: I do have a comment, Madam

1 Secretary, and Madam Chairman. I would like to state for
2 the public record that I object to rushing the maintenance
3 rule affirmation this morning. My vote was only distributed
4 this morning to the Commissioners' office. It contained new
5 and significant information which I think should have been
6 deliberated on.

7 I really believe that there is no reason to rush
8 this affirmation under the present conditions. Two or three
9 days you would have had the same result, but you would have
10 had the ability to look at the vote. We have been in
11 meetings all morning. We have not been able to deliberate
12 on the votes.

13 Finally, I would like to note, and this is kind of
14 philosophy, quoting from somebody that we all know,
15 whatsoever you do to the least of your brothers you do it to
16 yourself.

17 Thank you.

18 CHAIRMAN JACKSON: Is there anything else to come
19 before us today?

20 MS. VIETTI-COOK: No.

21 CHAIRMAN JACKSON: With that, we are adjourned.

22 [Whereupon at 10:34 a.m., the affirmation session
23 was concluded.]
24
25

CERTIFICATE

This is to certify that the attached description of a meeting of the U.S. Nuclear Regulatory Commission entitled:

TITLE OF MEETING: AFFIRMATION SESSION
PUBLIC MEETING

PLACE OF MEETING: Rockville, Maryland

DATE OF MEETING: Friday, June 18, 1999

was held as herein appears, is a true and accurate record of the meeting, and that this is the original transcript thereof taken stenographically by me, thereafter reduced to typewriting by me or under the direction of the court reporting company

Transcriber: Mike Paulus

Reporter: Mike Paulus
