SUBJECT: NUCLEAR INNOVATION NORTH AMERICA, LLC. - REQUEST FOR
WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE FOR SOUTH
TEXAS PROJECT, UNITS 3 AND 4, ADVANCED BOILING WATER REACTOR
SUBMITTAL OF COMBINED LICENSE APPLICATION REVISION 12

Dear Mr. Head:

By letter dated April 21, 2015, you submitted an affidavit dated April 21, 2015, executed by you as Manager, Regulatory Affairs, Nuclear Innovation North America, LLC; requesting that information in the following document be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 2, Section 2.390:

Submittal of Combined License Application Revision 12

A non-proprietary copy of this document has been placed in the U.S. Nuclear Regulatory Commission (NRC) Public Document Room and added to the Agencywide Documents Access and Management System Public Electronic Reading Room (ML15124A421).

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- i. This information is and has been withheld in confidence by NINA 3, NINA 4, and their affiliates.
- ii. This information is of a type that is customarily held in confidence by NINA 3, NINA 4, and their affiliates, and there is a rational basis for doing so because the information contains sensitive legal and financial information concerning financing arrangements, project cost, and operating expenses of NINA 3 and NINA 4.
- iii. This information is being transmitted to the NRC voluntarily, in confidence and under the provisions of 10 CFR2.390(a)(4) and it is to be received in confidence by the NRC.
- iv. This information is not available in public sources and could not be gathered readily from other publicly available information.
- v. Public disclosure of this information would create substantial harm to the competitive position of NINA 3, NINA 4, and their affiliates by disclosing internal financial information.

S. Head

We have reviewed the April 21, 2015, letter and the affidavit in accordance with the requirements of 10 CFR 2.390 and, on the basis of your statements, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure. Therefore, the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended. Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-415-8484 or Tom.Tai@nrc.gov.

Sincerely,

/RA Luis Betancourt Acting for/
