The Honorable Stephen G. Burns  
Chairman  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555-0001

Subject: Generation mPower LLC Supports NRC Staff Plans to Develop Variable Annual Fee Structure for Small Modular Reactors (SMRs) (SECY-15-0044)

Dear Chairman Burns:

On behalf of Generation mPower LLC (GmP), I am writing to express our business' support for the U. S. Nuclear Regulatory Commission staff's plans to develop a variable annual fee for Small Modular Reactors (SMRs), as discussed in SECY-15-0044. We request that the Commission approve the staff's plans to draft a proposed rule in 2015 that would amend Part 171 of Title 10 of the Code of Federal Regulations, and assign this rulemaking a high priority.

Annual fees are an important consideration for potential customers of SMRs, and industry needs this rulemaking to proceed promptly in order to provide regulatory and financial clarity supporting on-going business decisions. GmP believes such a rule change will help establish a fair and equitable annual fee structure for SMRs. Therefore, we support the plans to proceed with a proposed rule in 2015 and completion of a final rule by February 2016.

We look forward to providing detailed comments through the rulemaking process. Thank you for your consideration in this important matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Will A. Fox".

William A. Fox, III P.E.  
Chief Executive Officer, Generation mPower LLC  
President, B&W mPower, Inc.
