Jason,

I am Latischa Hanson & have been assigned to review your NRC application dated March 4, 2015. I have a few questions to ask for your response please:

1. C&K Leasing, LLC current Organizational Chart
2. Portable gauge→you have requested for use authorization of one gauge. Do you anticipate obtaining anymore? Once the NRC license is issued, your facility will be limited to only was Is authorized on your license. If you may anticipate purchasing more, please let me know, so we can adjust the authorized limit with the first license issue. It does not cost more.

As soon as I receive this information, I can continue with the application review. Please provide your response by COB May 7, 2015. You may email your response via pdf. Format for the organizational chart.

If you have any questions, please feel free to contact me.

Thank you,

Latischa

Yes, we own a gravel pit and we want to test our own rock. Sorry it seems to be a pour chart but that is it. Thanks.

So this is the official organizational chart in your company's business portfolio?

Latischa, on the page after question #11, I put an organization chart and the request for additional gauge in the future. There are only three people with the company. IF this is not acceptable, could you please send me a sample organization chart, I may not be understanding what you may want. Thanks Jason
