Subject: Submittal of DTE Electric Company Liability Insurance Policy Endorsements

The U. S. Nuclear Regulatory Commission (NRC) issued an amendment to Indemnity Agreement B-20 for DTE Electric Company (DTE) concurrent with the issuance of the Fermi 3 Combined License (Reference 2) on May 1, 2015. In Reference 3, the NRC stated its intent to coordinate with DTE and American Nuclear Insurers so that the effective date of the amended executed policy is concurrent with the issuance of the Fermi 3 Combined License and the associated amendment of the indemnity agreement.

The attachment to this letter provides copies of the DTE Nuclear Energy Liability Insurance Policy Endorsements for policies NW-0526 and NF-0092 dated May 1, 2015. This provides confirmation that the effective date of the amended executed policies are concurrent with the issuance of the Fermi 3 Combined License and the associated amendment of the indemnity agreement.
