Thank you so much Audrey. I also received your voice mail. I don't really have any questions. Thank you though for keeping us posted on this issue.

I hope you have a great rest of the week!

Cindy

Subject: Turkey Point Ultimate Heat Sink Temperature - Amendments may be issued soon

Hi Cindy, Hi Janet,

The NRC is expecting to issue the amendment to Florida Power & Light for Turkey Point 3 & 4 either late tomorrow or on Friday. I left you voicemails to see if you had any comments, concerns, or questions.

As of this morning, the NRC was not intending to issue a press release associated with the amendments; however, I will let you know as soon as possible if that changes.

You can reach me at: 301-415-0489 or by replying to this email.

Regards,

Audrey Klett; Project Manager
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission

Subject: RE: Turkey Point Ultimate Heat Sink Temperature - Notice in the Newspapers

Audrey,

I'm checking Cindy's email in her absence. We can't get the link to the notice to work. Can you check the link or send a copy of the notice?

Thanks.

Subject: Turkey Point Ultimate Heat Sink Temperature - Notice in the Newspapers

Hi Cindy,

The NRC published a public notice in the Miami Herald and the Key West Citizen newspapers this weekend (Sunday and Monday). The purpose of the notice was to notify the public that Turkey Point expanded the scope of its amendment request (it proposed to increase the frequency of a surveillance requirement) and to give the public an opportunity to provide comments to the NRC through August 5, 2014.

The notice can be found in NRC's Agencywide Documents Access and Management System (ADAMS) at Accession No. [ML14211A266](#).

The NRC is not intending to issue a press release when we issue the amendments. I will notify you prior to the NRC issuing the amendments.

Please call me if you have any questions.
