Subject: NRC Notification of State of Florida Regarding St. Lucie License Amendment - Revise the implementation date of Cyber Security Plan (CSP) Milestone 8. Milestone 8 of the CSP
Importance: High

Dear Ms. Becker,

The U.S. Nuclear Regulatory Commission (NRC) is about to issue license amendments for the St. Lucie Nuclear Plant, Units 1 and 2. In accordance with Title 10 of the *Code of Federal Regulations*, Section 50.91(b), I am notifying you of the proposed issuance of these amendments. These amendments consist of changes to the Renewed Operating Licenses in response to the Florida Power & Light Company (FPL, the licensee) application dated June 30, 2014 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML14192A022), as supplemented by letter dated August 19, 2014 (ADAMS Accession No. ML14241A422). The amendments would revise the implementation date of Cyber Security Plan (CSP) Milestone 8. Milestone 8 of the CSP is concerned with the full implementation of the CSP.

Attached is the associated proposed no significant hazards consideration for this amendment request that was published in the *Federal Register* on November 4, 2014 (79 FR 65431). Please see the attached document.

Please let us know if you have any comments on behalf of the State of Florida for the above amendments. If you have any questions, please call me at (301) 415-1447.

Regards,

Farideh
