This is a response to the NRC regarding a notice sent by citizens to attend meetings to disapprove of the expansion at Turkey Point. I am in favor of the Turkey Point expansion of two nuclear units. I have worked with FP&L at both the Point Beach NP in Two Rivers, WI, and the Turkey Point NP in Florida City, FL with Bechtel in the Safety Departments and have full confidence in the team to manage these plants safely. I also am aware that FP&L has decommissioned several power plants in Florida and the requirements for extra power, especially with the huge influx of immigrants and others from our northern states, is critical.

Very truly yours,

Laura Larrabee
