Subject: Turkey Point nuclear plant expansion

Dear Ms. Bladey,

As a native resident of south Miami-Dade County with young children and many relatives and friends in this area, I am deeply concerned about the prospect of new nuclear reactors being built at FPL's Turkey Point facility. Turkey Point already makes residents nervous due to its relative proximity to residential areas. We should be moving away from nuclear energy and toward more environmentally friendly sources like sun (hello, this is FLORIDA!), wind and ocean current.

Please consider my dissent and that of so many other South Floridians who say NO to more nuclear reactors at Turkey Point.

Monica Roos
