Alicia,

I would like to add these PowerPoint slides to the public record for your review of the Turkey Point EIS. They are closeups of the Turkey Point showing .5 - 6 feet of sea level rise and were prepared by Dr.

Peter Harlem of Florida Atlantic University. As you will see, sea level rise will have an immediate and ongoing effect on the plant site and it's surrounding environment. I tried sending them to [theturkeypoint.COLEIS@nrc.gov](mailto:theturkeypoint.COLEIS@nrc.gov) address and they were bounced back. They exceeded your mailbox limit.

I will be sending 2 emails with one slide each.

Thank you,

Captain Dan Kipnis
