Subject: Turkey Point nuclear power expansion

For now let's forget the ongoing discussion about the proximity of Turkey Point to two National Parks and a marine sanctuary. Let's forget the discussion about crocodile habitat. Let's forget about our water supply, manatees, the loss of 1000s of acres of critical wetlands, endangered species and evacuation routes..Let's forget the discussion about possible loss of life..... Let's talk MONEY.

FP&L believes locating TWO NEW Nuclear Power Plants here at Turkey Point is in the best interests of FP&L and its shareholders.. a business decision, pure and simple.

FP&L will not compensate you for any losses you may incur due to their business decisions.

Your Insurance Company does not cover your home or businesses in the event of a Nuclear "incident" . Your insurance company will not compensate you for any losses you may incur. That is a business decision pure and simple.

You will still be obligated to pay your Mortgage even if you must abandon your home.
The Banks will not forgive your loans.

The Government, whether local or Federal, will not compensate you either.

SO....

If a nuclear "incident" forces me to abandon my home, my property becomes worthless overnight and I lose almost everything I have.

How much money will YOU lose if the value of your home drops to \$0 overnight?

How much money will YOU lose if the value of your business drops to \$0 overnight?

How much money will YOU lose if your job disappears overnight?

How much money will YOU lose if you can NEVER reclaim your property or reopen your business?

How and where will you live without assets, without income withoutanything?

In the blink of an eye, Nuclear Power Generation at Turkey Point has the potential to wipe out every penny of value and income in South Florida.

Nuclear Power at Turkey Point has the potential to destroy , in a virtual instant, everything you have spent your life working for.

Are you willing to take this financial risk?

Are you willing to let FP&L gamble with your money and your life?

I am not.

This is a pure and simple business decision.

NUCLEAR POWER IS BAD BUSINESS

**BAD FOR ME,
BAD FOR YOU
BAD FOR EVERYONE IN SOUTH FLORIDA**

PLEASE SEND A LETTER TO THE NRC BEFORE [MAY 22](#), expressing your opposition to the nuclear expansion of Turkey Point. I have enclosed a sample letter below. Feel free to use it or modify it anyway you wish BUT send them a letter. It is critically important the NRC IS informed about how you feel in this matter.

Re: NUREG-2176 Cindy Bladey, Office of Administration Mail Stop: OWFN 12 H8 U.S. Nuclear Regulatory Commission, Washington, DC [20555-000](#)

Dear Ms. Bladey:

I object to Florida Power and Light's plan to expand Nuclear Power Generation at Turkey Point. Contrary to the assertion of the NRC (EIS) that the "socioeconomic" effects of building and operating the proposed reactors #6 and #7, are "small and beneficial" I believe the actual risk to the population of South Florida is astronomical and potentially devastating. History has shown that unanticipated "incidents" can occur at Nuclear Power generating facilities. History has also shown that the results of such an incident can be catastrophic and long lasting. Locating a Nuclear Power Generating Facility in close proximity to a densely populated metropolitan area of more than 2,500,000 people, is an ill conceived notion at best. Although this decision may be a means to enrich the shareholders of FP&L, it places the entire population of South Florida in extreme jeopardy. I simply am not willing to take the necessary personal and financial risk to further FP&L's business objectives. I hereby request that you deny the construction and operating license for the proposed facilities at Turkey Point.

Sincerely,
