Subject: PROPOSED NUCLEAR REACTORS AT TURKEY POINT

To: U.S. NUCLEAR REGULATORY COMMISSION

I am writing to object to the building of more nuclear reactors at Turkey Point and their attendant transmission lines. These reactors would pose a danger not only in a hurricane, but the location doesn't take into account the reality of rising seas caused by climate change. We are in the 21st Century and this proposed expansion was planned before the reality of climate change was confirmed by scientists. Please do not approve the building of these reactors and the transmission lines.
