I am adamantly against having FPL's nuclear power plant. With Florida being prone to Hurricanes this could be detrimental to our communities and our environment. Don't you remember what happened to [Japan in 2011](#)? Why can't FPL consider championing solar (we are the "sunshine state"), wind or hydro energy? As a Miami resident, the idea of a nuclear power plant terrifies me, and I strongly disagree with this plan on all fronts.
