NOTICE

This message is intended only for the use of the individual or entity to which it is addressed and may contain information that is privileged, confidential, or exempt from disclosure under applicable law. If the reader of this message is not the intended recipient or the employee responsible for delivering the message to the intended recipient, you are hereby notified that any dissemination, distribution or copying of this communication is strictly prohibited. If you received this communication in error, please notify the sender immediately by telephone and return the original to the above address, by U.S. Mail. Thank You.

The following additional information is needed to complete the review of your request to remove 10 CFR 35.300 materials from your NRC license.

1. Please state the kinds and quantities of 35.300 materials you possessed, used and stored. For example, we only used Iodine-131 in millicurie quantities (30 millicuries maximum) for hyperthyroid treatments.
2. Please state the final disposition of any 35.300 materials waste. For example, radioactive waste was returned to the radiopharmacy for disposal. Any contaminated paper items were decayed to background radiation levels and disposed of as "normal" trash.
3. Please submit an evaluation (surveys) of areas where 35.300 materials were possessed, used or stored.
4. If you performed close-out radiation surveys using a g-m meter and wipe tests, please submit:
 - a. a facility diagram indicating where the surveys were performed. Indicate where radiation levels were measured and where wipe tests were taken.
 - b. the make and model of the survey instrument and the instrument used to analyze the wipe tests.
 - c. the date the g-m survey meter was last calibrated.
 - d. the identity of the person who performed the survey.
 - e. the background radiation levels for the g-m surveys and wipe tests.
 - f. the date of the survey.
5. Since the license will no longer be authorized for 35.300 materials, we will remove the authorization for 35.300 materials from Dr. Thomas Bowers authorization. Please acknowledge.

Please send a facsimile (630-515-1078) of your response to the above within 7 days and state, Response to Control 586427. Please include a cover letter on company letterhead, dated and signed (signed by an individual who is authorized to sign official documents on behalf of the licensee) with your response letter. Please call me at 630-829-9839 if you have any questions.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this facsimile and the attached documents will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

From the desk of:

A handwritten signature in cursive script, appearing to read "Bill Reichhold".

Bill Reichhold
