Subject: SAY NO TO FPL TURKEY POINT EXPANSION

To Whom It May Concern

US Nuclear Regulatory Commission

Please do not approve the expansion of the nuclear power plant at Turkey Point. There are many concerns that have been brought but my biggest concern is that the Turkey Point site is not safe, because it is vulnerable like Fukushima to sea level rise and because it has problems with cooling its existing units. Neither of these concerns are addressed in the application submitted to your agency. I believe you should do the right thing and not approve the Turkey Point plant expansion.

*Thank you.
