SUBJECT: NON-ACCEPTANCE LETTER FOR TOPICAL REPORT WCAP-17938, "AP1000
IN-CONTAINMENT CABLES AND NON-METALLIC INSULATION DEBRIS
INTEGRATED ASSESSMENT" (PROJECT NO. 0811)

Dear Mr. DeLong:

By letter dated March 12, 2015 (Agencywide Documents Access and Management System
Accession No. ML15076A069), Westinghouse Electric Company (WEC) submitted
WCAP-17938, "AP1000 In-Containment Cables and Non-Metallic Insulation Debris Integrated
Assessment," to the U.S. Nuclear Regulatory Commission (NRC) staff for review.

The purpose of this letter is to provide the results of the NRC staff's acceptance review of
WCAP-17938. The acceptance review was performed to determine if there is sufficient
technical information in scope and depth to allow the NRC staff to complete its detailed
technical review. The NRC staff has reviewed WCAP-17938 and concluded that it did not
provide technical information in sufficient detail to enable the NRC staff to complete its detailed
review and make an independent assessment regarding the acceptability of WCAP-17938.

These deficiencies were clarified to your staff during the conference call on May 21, 2015. The
NRC staff identified that the information included in the enclosure (Item 1) to this letter is
needed to complete its technical review. NRC staff also provided additional gaps that will need
to be addressed in a subsequent re-submittal (see Enclosure, Item 2, gaps 1-23).

The NRC staff notes that its review to date has identified that your application did not provide
the technical information (see Enclosure) in sufficient detail to enable the NRC staff to complete
its detailed review. Therefore, if you decide to re-submit the request, it must include at a
minimum, the information provided in the enclosure (Item 1).

Document transmitted herewith
contains sensitive unclassified
information. When separated from the
enclosure, this document is
"DECONTROLLED."
