2017

Examinations Developed by: Facility / NRC (circle one)

| Target Date* | Task Description (Reference)   | Chief Examiner's Initials |
|--------------|--|---------------------------|
| -180         | 1. Examination administration date confirmed (C.1.a; C.2.a and b)  | <i>[Signature]</i>        |
| -120         | 2. NRC examiners and facility contact assigned (C.1.d; C.2.e)  | <i>[Signature]</i>        |
| -120         | 3. Facility contact briefed on security and other requirements (C.2.c)   | <i>[Signature]</i>        |
| -120         | 4. Corporate notification letter sent (C.2.d)  | <i>[Signature]</i>        |
| [-90]        | [5. Reference material due (C.1.e; C.3.c; Attachment 2)]   | <i>[Signature]</i>        |
| -75          | 6. Integrated examination outline(s) due, including Forms ES-201-2, ES-201-3, ES-301-1, ES-301-2, ES-301-5, ES-D-1's, ES-401-1/2, ES-401-3, and ES-401-4, as applicable (C.1.e and f; C.3.d)   | <i>[Signature]</i>        |
| -70          | 7. Examination outline(s) reviewed by NRC and feedback provided to facility licensee (C.2.h; C.3.e)  | <i>[Signature]</i>        |
| -45          | 8. Proposed examinations (including written, walk-through JPMs, and scenarios, as applicable), supporting documentation (including Forms ES-301-3, ES-301-4, ES-301-5, ES-301-6, and ES-401-6), and reference materials due (C.1.e, f, g and h; C.3.d) | <i>[Signature]</i>        |
| -30          | 9. Preliminary license applications (NRC Form 398's) due (C.1.i; C.2.g; ES-202)  | <i>[Signature]</i>        |
| -14          | 10. Final license applications due and Form ES-201-4 prepared (C.1.i; C.2.i; ES-202)   | <i>[Signature]</i>        |
| -14          | 11. Examination approved by NRC supervisor for facility licensee review (C.2.h; C.3.f)   | <i>[Signature]</i>        |
| -14          | 12. Examinations reviewed with facility licensee (C.1.j; C.2.f and h; C.3.g)   | <i>[Signature]</i>        |
| -7           | 13. Written examinations and operating tests approved by NRC supervisor (C.2.i; C.3.h)   | <i>[Signature]</i>        |
| -7           | 14. Final applications reviewed; examination approval and waiver letters sent (C.2.i; Attachment 4; ES-204)  | <i>[Signature]</i>        |
| -7           | 15. Proctoring/written exam administration guidelines reviewed with facility licensee (C.3.k)  | <i>[Signature]</i>        |
| -7           | 16. Approved scenarios, job performance measures, and questions distributed to NRC examiners (C.3.i)   | <i>[Signature]</i>        |

\* Target dates are keyed to the examination date identified in the corporate notification letter. They are for planning purposes and may be adjusted on a case-by-case basis in coordination with the facility licensee.

[ ] Applies only to examinations prepared by the NRC.

|--|--|--|----|----|
| Item   | Task Description   | Initials   |    |    |
|  |  | a  | b* | c# |
| 1.<br>W<br>R<br>I<br>T<br>T<br>E<br>N  | a. Verify that the outline(s) fit(s) the appropriate model, in accordance with ES-401.   | Ed   | HW | 2  |
|  | b. Assess whether the outline was systematically and randomly prepared in accordance with Section D.1 of ES-401 and whether all K/A categories are appropriately sampled.  | Ed   | HW | 2  |
|  | c. Assess whether the outline over-emphasizes any systems, evolutions, or generic topics.  | Ed   | HW | 2  |
|  | d. Assess whether the justifications for deselected or rejected K/A statements are appropriate.  | Ed   | HW | 2  |
| 2.<br>S<br>I<br>M<br>U<br>L<br>A<br>T<br>O<br>R  | a. Using Form ES-301-5, verify that the proposed scenario sets cover the required number of normal evolutions, instrument and component failures, technical specifications, and major transients.  | Ed   | HW | 2  |
|  | b. Assess whether there are enough scenario sets (and spares) to test the projected number and mix of applicants in accordance with the expected crew composition and rotation schedule without compromising exam integrity, and ensure that each applicant can be tested using at least one new or significantly modified scenario, that no scenarios are duplicated from the applicants' audit test(s), and that scenarios will not be repeated on subsequent days.  | Ed   | HW | 2  |
|  | c. To the extent possible, assess whether the outline(s) conform(s) with the qualitative and quantitative criteria specified on Form ES-301-4 and described in Appendix D.   | Ed   | HW | 2  |
| 3.<br>W<br>/<br>T  | a. Verify that the systems walk-through outline meets the criteria specified on Form ES-301-2:<br>(1) the outline(s) contain(s) the required number of control room and in-plant tasks distributed among the safety functions as specified on the form<br>(2) task repetition from the last two NRC examinations is within the limits specified on the form<br>(3) no tasks are duplicated from the applicants' audit test(s)<br>(4) the number of new or modified tasks meets or exceeds the minimums specified on the form<br>(5) the number of alternate path, low-power, emergency, and RCA tasks meet the criteria on the form. | Ed   | HW | 2  |
|  | b. Verify that the administrative outline meets the criteria specified on Form ES-301-1:<br>(1) the tasks are distributed among the topics as specified on the form<br>(2) at least one task is new or significantly modified<br>(3) no more than one task is repeated from the last two NRC licensing examinations  | Ed   | HW | 2  |
|  | c. Determine if there are enough different outlines to test the projected number and mix of applicants and ensure that no items are duplicated on subsequent days.   | Ed   | HW | 2  |
| 4.<br>G<br>E<br>N<br>E<br>R<br>A<br>L  | a. Assess whether plant-specific priorities (including PRA and IPE insights) are covered in the appropriate exam sections.   | Ed   | HW | 2  |
|  | b. Assess whether the 10 CFR 55.41/43 and 55.45 sampling is appropriate.   | Ed   | HW | 2  |
|  | c. Ensure that K/A importance ratings (except for plant-specific priorities) are at least 2.5.   | Ed   | HW | 2  |
|  | d. Check for duplication and overlap among exam sections.  | Ed   | HW | 2  |
|  | e. Check the entire exam for balance of coverage.  | Ed   | HW | 2  |
|  | f. Assess whether the exam fits the appropriate job level (RO or SRO).   | Ed   | HW | 2  |

1. Pre-Examination

I acknowledge that I have acquired specialized knowledge about the NRC licensing examinations scheduled for the week(s) of **August 11-22, 2014 (LOC26)** as of the date of my signature. I agree that I will not knowingly divulge any information about these examinations to any persons who have not been authorized by the NRC chief examiner. I understand that I am not to instruct, evaluate, or provide performance feedback to those applicants scheduled to be administered these licensing examinations from this date until completion of examination administration, except as specifically noted below and authorized by the NRC (e.g., acting as a simulator booth operator or communicator is acceptable if the individual does not select the training content or provide direct or indirect feedback). Furthermore, I am aware of the physical security measures and requirements (as documented in the facility licensee's procedures) and understand that violation of the conditions of this agreement may result in cancellation of the examinations and/or an enforcement action against me or the facility licensee. I will immediately report to facility management or the NRC chief examiner any indications or suggestions that examination security may have been compromised.

2. Post-Examination

To the best of my knowledge, I did not divulge to any unauthorized persons any information concerning the NRC licensing examinations administered during the week(s) of **August 11-22, 2014 (LOC26)**. From the date that I entered into this security agreement until the completion of examination administration, I did not instruct, evaluate, or provide performance feedback to those applicants who were administered these licensing examinations, except as specifically noted below and authorized by the NRC.

NOTES:

**1. Pre-Examination**

I acknowledge that I have acquired specialized knowledge about the NRC licensing examinations scheduled for the week(s) of **August 11-22, 2014 (LOC26)** as of the date of my signature. I agree that I will not knowingly divulge any information about these examinations to any persons who have not been authorized by the NRC chief examiner. I understand that I am not to instruct, evaluate, or provide performance feedback to those applicants scheduled to be administered these licensing examinations from this date until completion of examination administration, except as specifically noted below and authorized by the NRC (e.g., acting as a simulator booth operator or communicator is acceptable if the individual does not select the training content or provide direct or indirect feedback). Furthermore, I am aware of the physical security measures and requirements (as documented in the facility licensee's procedures) and understand that violation of the conditions of this agreement may result in cancellation of the examinations and/or an enforcement action against me or the facility licensee. I will immediately report to facility management or the NRC chief examiner any indications or suggestions that examination security may have been compromised.

**2. Post-Examination**

To the best of my knowledge, I did not divulge to any unauthorized persons any information concerning the NRC licensing examinations administered during the week(s) of **August 11-22, 2014 (LOC26)**. From the date that I entered into this security agreement until the completion of examination administration, I did not instruct, evaluate, or provide performance feedback to those applicants who were administered these licensing examinations, except as specifically noted below and authorized by the NRC.

| d. NRC Supervisor   | <i>DONALD JACKSON</i>   | <i>7-29-14</i>                  |           |                                     |           |  |                          |      |           |                           |                |                         |                      |                |                           |                   |                |                   |                       |                |
| NOTE: * The facility signature is not applicable for NRC-developed tests.<br># Independent NRC reviewer initial items in Column "c"; chief examiner concurrence required.   |   |                                 |           |                                     |           |  |                          |      |           |                           |                |                         |                      |                |                           |                   |                |                   |                       |                |

| Facility: <b>SSS Units 1 and 2</b>                               |  | Date of Exam: <b>08/11/2014</b> | Scenario Numbers: <b>1 / 2 / 3 / 4 / 5</b> |            | Operating Test No.: <b>LOC26</b> |
|--|--|---------------------------------|--|------------|----------------------------------|
| QUALITATIVE ATTRIBUTES   |  |                                 | Initials                                   |            |                                  |
|  |  |                                 | a  | b*         | c#                               |
| 1.   | The initial conditions are realistic, in that some equipment and/or instrumentation may be out of service, but it does not cue the operators into expected events.   |                                 | <i>RM</i>                                  | <i>TRC</i> | <i>2</i>                         |
| 2.   | The scenarios consist mostly of related events.  |                                 | <i>RM</i>                                  | <i>TRC</i> | <i>2</i>                         |
| 3.   | Each event description consists of <ul style="list-style-type: none"> <li>the point in the scenario when it is to be initiated</li> <li>the malfunction(s) that are entered to initiate the event</li> <li>the symptoms/cues that will be visible to the crew</li> <li>the expected operator actions (by shift position)</li> <li>the event termination point (if applicable)</li> </ul> |                                 | <i>RM</i>                                  | <i>TRC</i> | <i>2</i>                         |
| 4.   | No more than one non-mechanistic failure (e.g., pipe break) is incorporated into the scenario without a credible preceding incident such as a seismic event.   |                                 | <i>RM</i>                                  | <i>TRC</i> | <i>1</i>                         |
| 5.   | The events are valid with regard to physics and thermodynamics.  |                                 | <i>RM</i>                                  | <i>TRC</i> | <i>1</i>                         |
| 6.   | Sequencing and timing of events is reasonable, and allows the examination team to obtain complete evaluation results commensurate with the scenario objectives.  |                                 | <i>RM</i>                                  | <i>TRC</i> | <i>1</i>                         |
| 7.   | If time compression techniques are used, the scenario summary clearly so indicates. Operators have sufficient time to carry out expected activities without undue time constraints. Cues are given.  |                                 | <i>RM</i>                                  | <i>TRC</i> | <i>1</i>                         |
| 8.   | The simulator modeling is not altered.   |                                 | <i>RM</i>                                  | <i>TRC</i> | <i>2</i>                         |
| 9.   | The scenarios have been validated. Pursuant to 10 CFR 55.46(d), any open simulator performance deficiencies or deviations from the referenced plant have been evaluated to ensure that functional fidelity is maintained while running the planned scenarios.  |                                 | <i>RM</i>                                  | <i>TRC</i> | <i>2</i>                         |
| 10.  | Every operator will be evaluated using at least one new or significantly modified scenario. All other scenarios have been altered in accordance with Section D.5 of ES-301.  |                                 | <i>RM</i>                                  | <i>TRC</i> | <i>2</i>                         |
| 11.  | All individual operator competencies can be evaluated, as verified using Form ES-301-6 (submit the form along with the simulator scenarios).   |                                 | <i>RM</i>                                  | <i>TRC</i> | <i>2</i>                         |
| 12.  | Each applicant will be significantly involved in the minimum number of transients and events specified on Form ES-301-5 (submit the form with the simulator scenarios).  |                                 | <i>RM</i>                                  | <i>TRC</i> | <i>1</i>                         |
| 13.  | The level of difficulty is appropriate to support licensing decisions for each crew position.  |                                 | <i>RM</i>                                  | <i>TRC</i> | <i>2</i>                         |

## Instructions:

- Check the applicant level and enter the operating test number and Form ES-D-1 event numbers for each event type; TS are not applicable for RO applicants. ROs must serve in both the "at-the-controls (ATC)" and "balance-of-plant (BOP)" positions; Instant SROs must serve in both the SRO and the ATC positions, including at least two instrument or component (I/C) malfunctions and one major transient, in the ATC position. If an Instant SRO *additionally* serves in the BOP position, one I/C malfunction can be credited toward the two I/C malfunctions required for the ATC position.
- Reactivity manipulations may be conducted under normal or *controlled* abnormal conditions (refer to Section D.5.d) but must be significant per Section C.2.a of Appendix D. (\*) Reactivity and normal evolutions may be replaced with additional instrument or component malfunctions on a 1-for-1 basis.
- Whenever practical, both instrument and component malfunctions should be included; only those that require verifiable actions that provide insight to the applicant's competence count toward the minimum requirements specified for the applicant's license level in the right-hand columns.
