"Washington Heart and Vascular Center confirms that equipment used to measure dosages will be calibrated in accordance with nationally recognized standards or the manufacturer's instructions."

"Washington Heart and Vascular Center will either perform a prospective evaluation demonstrating that unmonitored individuals are not likely to receive, in one year, a radiation dose in excess of 10% of the allowable limits in 10 CFR Part 20, or we will provide dosimetry that meets the requirements listed under 'Criteria' in NUREG-1556, Volume 9, 'Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Medical Use Licenses.'"
