Docket Nos. 50-338/339
License Nos. NPF-4/7

VIRGINIA ELECTRIC AND POWER COMPANY
NORTH ANNA POWER STATION UNITS 1 AND 2
RESPONSE TO PROPOSED DIRECTOR'S DECISION

By letter dated April 21, 2015, the NRC provided Dominion with a copy of the proposed Director's Decision on the October 20, 2011 petition that was submitted by Mr. Paul Gunter, Kevin Kamps, Thomas Saporito, Paxus Calta, Alex Jack, Scott Price, and John Cruickshank. The NRC requested that Dominion provide comments on any portions of the decision that are believed to involve errors or any issues in the petitions that are believed to have not been fully addressed.

Dominion has reviewed the proposed Director's Decision and has found the information to be accurate. However, for completeness, Dominion recommends the following paragraph be added after the first paragraph at the top of page 10, which ends with the statement, "...no functional damage occurred to North Anna 1 and 2 and that the plant could be restarted safely."

"The licensee has completed all long term actions identified in NRC confirmatory action letter (CAL) No. NRR-2011-002 dated November 11, 2011 (ADAMS Accession No. ML11311A201). The licensee periodically provided summaries of the completed actions to the NRC. The final closure summaries of the remaining CAL items were provided on May 13, 2013 via letter Serial No. 13-143 (ADAMS Accession No. ML13135A637)."

If you have any questions regarding this information, please contact Ms. Diane Aitken at (804) 273-2694.

Sincerely,

Daniel G. Stoddard
Sr. Vice President – Nuclear Operations
Virginia Electric and Power Company
