Dear Mr. Colaccino:

On behalf of the nuclear energy industry, the Nuclear Energy Institute (NEI) provides the attached comments on draft revisions to Regulatory Guide (RG) 1.206, "Combined License Applications for Nuclear Power Plants (LWR Edition)." The attached comments summarize and follow-up on the feedback we provided in a March 31, 2015, public meeting and provide input for staff consideration as it develops additional revisions to RG 1.206.

We look forward to the staff's feedback on the attached comments and to continuing the discussion of additional revisions to RG 1.206. If you have any questions concerning these industry comments or require additional information, please contact me.

Sincerely,
