Chief Cindy Bladley

U.S. Nuclear Regulatory Commission, Office of Administration, OWFN 12  
H8  
Washington, DC 20555

Dear Chief Bladley,

I am writing about Docket ID: NRC-2009-0337 to express my OPPOSITION to the proposed expansion of Turkey Point Power Plant, located in Homestead, FL. The site proposed for expansion is located directly on the shores of Biscayne National Park in an area that is extremely susceptible to sea level rise and the impacts of climate change. The expansion of Turkey Point could have serious environmental impacts on sensitive ecological habitat and the health and sustainability of limited freshwater resources.

Like so many US citizens, I am committed to protecting the National Park System which preserves our country's incredible array of landscapes, waters, wildlife and opportunities for exploration.

Biscayne National Park is an IRREPLACEABLE national treasure that safeguards precious natural resources and recreational opportunities.

According to the Nuclear Regulatory Commission's own regulations, " sites adjacent to lands devoted to public use may be considered unsuitable " and unacceptable impacts are " most apt to arise in areas adjacent to natural-resource-oriented areas ". Within just 6 miles of the proposed expansion site, there are 2 National Parks, an aquatic preserve, a National Wildlife refuge and a wetland habitat preserve.

In following the NRC's OWN guidelines, the expansion of Turkey Point could have unacceptable and IRREVERSIBLE impacts on these treasured sites.

Operating 2 new reactors at Turkey Point could also have huge impacts on the quantity and quality of precious freshwater resources.

Withdrawal of massive amounts of water from under Biscayne Bay as back-up cooling water could increase salinity levels within the Bay and hasten saltwater contamination into limited freshwater supplies.

Furthermore, expanding a nuclear power plant in an area that is ground zero for sea level rise threatens the future of South Florida. I strongly oppose the expansion of Turkey Point as proposed due to the project's potentially widespread negative environmental and public health and safety impacts and the serious threats it poses to Biscayne National Park.

Thank you for considering my request.

Sincerely,

Mr. Marco de la Rosa  
12700 NE 124th St  
Kirkland, WA 98034-8316
