Subject: Status Update - 2.206 Petition for Turkey Point 3 and 4, dated July 18, 2014 - OEDO LTR-14-0412

Good morning Mr. Saporito,

This email is to provide you an update on your 2.206 petition, which was submitted to the NRC on July 18, 2014. In your petition, you raised several concerns with the ultimate heat sink at the Turkey Point Nuclear Generating Unit Nos. 3 and 4 and requested that actions be taken by NRC and Florida Power & Light (the licensee for Turkey Point). Your request was reviewed by the NRC's Petition Review Board (PRB). On January 30, 2015, the NRC provided you a letter stating that the NRC accepted, in part, your petition for review. That letter discussed the PRB's plan for resolving your petition.

The PRB is reviewing your petition and is working on a proposed Director's Decision. The NRC's target date to complete its review of the petition is September 30, 2015.

Please let me know if you have any questions.

Audrey Klett, Petition Manager
Project Manager for Turkey Point 3 and 4
