SUBJECT: VOID LETTER CONCERNING APPLICATION FOR LICENSE AMENDMENT,  
CONTROL NO. 586062

Dear Mr. Williams:

This concerns the subject application for an amendment to your material license in which Core Laboratories, Inc., requested in letter dated February 16, 2015, "approval to dispose of well returns containing small concentrations of radioactive tracer material in municipal or privately owned landfills." Your request cannot be approved because of jurisdiction differences between Agreement States and non-Agreement States.

Therefore, you are hereby notified that this application for an amendment has been voided without prejudice. This action is without prejudice to the resubmission of an application for an amendment limiting the scope of the request to specific non-Agreement States. The NRC will use the public consultation process to review the proposed activity, and will seek comments from members of the public and specific non-Agreement States prior to making a determination.

Sincerely,
