Alicia,

The EPA requests a 2-week extension of the comment deadline for the Turkey Point Units 6 and 7 DEIS. This extension would allow us time for internal research and discussion of issues related to the proposed injection wells, and further evaluation and refinement of our comments related to several complex issues involving groundwater, as well as the other aspects of the project. We appreciate the NRC's consideration of this request, and appreciate your coordination with us.

Thank you,

*Ramona McConney*
