## **Audit Report**

### **AUDIT OF NRC'S TASK INTERFACE AGREEMENT PROCESS**

**OIG-15-A-05**

#### **Status of Recommendations**

Recommendation 1: Develop sufficient internal controls to ensure TIA performance measures for timeliness are met.

Agency Response Dated  
April 29, 2015:

In response to the January 29, 2015, request for status on Recommendation 1 of the Office of the Inspector General (OIG) audit of the U.S. Nuclear Regulatory Commission's (NRC's) Task Interface Agreement (TIA) process (Agencywide Documents Access and Management System (ADAMS) Accession No. ML15029A076), the NRC staff provides the following update. As noted in the NRC response to the OIG audit report, the staff is working to update the TIA office instruction, COM-106, "Control of Task Interface Agreements," to include revised performance measures, including internal management controls to ensure the measures are met (ADAMS Accession No. ML14350A026). The staff is on schedule to complete this revision by September 1, 2015. To support this effort, the staff conducted regional webinars in February and March to relay the OIG recommendation and obtain feedback on the TIA process.

Estimated Completion Date: 9/1/2015    Contact: Holly Cruz

OIG Analysis: The actions proposed by the agency continue to meet the intent of the recommendation. This recommendation will be closed after OIG reviews the internal controls relating to timeliness in the forthcoming updated COM-106.

**Status:** Resolved.
