SUBJECT: WESTINGHOUSE COLUMBIA FUEL FABRICATION FACILITY
DECOMMISSIONING FUNDING PLAN

Westinghouse Electric Company LLC (Westinghouse) is pleased to submit for NRC review and approval the adjusted "*Columbia Fuel Fabrication Facility Decommissioning Funding Plan*" to terminate license SNM-1107 in accordance with the requirements of 10CFR70.25(e) and Chapter 11 of the SNM-1107 License Application. This plan was developed by personnel with extensive knowledge of decommissioning techniques and strong expertise in assessing, planning, performing and verifying compliance with the radiological criteria for license termination (10 CFR 20 Subpart E).

This plan is proprietary in its entirety, and a non-proprietary version is not submitted. In conformance with the requirements of 10 CFR 2.390, as amended, of the Commission's regulations, enclosed with this submittal is an Application for Withholding Proprietary Information from Public Disclosure, with Proprietary Information Notice and Copyright Notice (Non-Proprietary), and an Affidavit (Non-Proprietary). The Affidavit sets forth the basis on which the information identified as proprietary may be withheld from public disclosure by the Commission.

Should you have any questions or require any additional information, please telephone me directly at (803) 647-3338.

Sincerely,

A handwritten signature in blue ink that reads 'Nancy Blair Parr'.

APPLICATION FOR WITHHOLDING PROPRIETARY
INFORMATION FROM PUBLIC DISCLOSURE

Subject: "Westinghouse Columbia Fuel Fabrication Facility Decommissioning Funding Plan"
(Proprietary)

Reference: Letter from Nancy Blair Parr to Director, Office of Nuclear Material Safety and Safeguards
and Environmental Review, LTR-RAC-15-32, dated June 5, 2015

The Application for Withholding Proprietary Information from Public Disclosure is submitted by Westinghouse Electric Company LLC (Westinghouse), pursuant to the provisions of paragraph (b)(1) of Section 2.390 of the Commission's regulations. It contains technical and commercial cost information proprietary to Westinghouse and customarily held in confidence.

The information for which withholding is being requested is identified in the proprietary version of the subject report. In conformance with 10 CFR Section 2.390, an Affidavit accompanies this Application for Withholding Proprietary Information from Public Disclosure, setting forth the basis on which the identified proprietary information may be withheld from public disclosure.

Accordingly, it is respectfully requested that the subject information which is proprietary to Westinghouse be withheld from public disclosure in accordance with 10 CFR Section 2.390 of the Commission's regulations.

Should you have any questions or require any additional information, please telephone me directly at (803) 647-3338.

Sincerely,

Nancy Blair Parr

Nancy Blair Parr, Manager
CFFF Licensing
Westinghouse Electric Company LLC

AFFIDAVIT

- (1) I am the Vice President and Plant Manager of Columbia Fuel Operations, within Nuclear Fuel, Westinghouse Electric Company LLC (Westinghouse), and as such, I have been specifically delegated the function of reviewing the proprietary information sought to be withheld from public disclosure in connection with Westinghouse Columbia Fuel Fabrication Facility (CFFF) submittals to the NRC, and am authorized to apply for its withholding on behalf of Westinghouse.
- (2) I am making this Affidavit in conformance with the provisions of 10 CFR Section 2.390 of the Commission's regulations and in conjunction with the Westinghouse Application for Withholding Proprietary Information from Public Disclosure accompanying this Affidavit.
- (3) I have personal knowledge of the criteria and procedures utilized by Westinghouse in designating information as a trade secret, privileged or as confidential commercial or financial information.
- (4) Pursuant to the provisions of paragraph (b)(4) of Section 2.390 of the Commission's regulations, the following is furnished for consideration by the Commission in determining whether the information sought to be withheld from public disclosure should be withheld.
 - (i) The information sought to be withheld from public disclosure is owned and has been held in confidence by Westinghouse.
 - (ii) The information is of a type customarily held in confidence by Westinghouse and not customarily disclosed to the public. Westinghouse has a rational basis for determining the types of information customarily held in confidence by it and, in that connection, utilizes a system to determine when and whether to hold certain types of information in confidence. The application of that system and the substance of that system constitutes Westinghouse policy and provides the rational basis required.

Under that system, information is held in confidence if it falls in one or more of several types, the release of which might result in the loss of an existing or potential competitive advantage, as follows:

- (a) The information reveals the distinguishing aspects of a process (or component, structure, tool, method, etc.) where prevention of its use by any of Westinghouse's competitors without license from Westinghouse constitutes a competitive economic advantage over other companies.
 - (b) It consists of supporting data, including test data, relative to a process (or component, structure, tool, method, etc.), the application of which data secures a competitive economic advantage, e.g., by optimization or improved marketability.
 - (c) Its use by a competitor would reduce his expenditure of resources or improve his competitive position in the design, manufacture, shipment, installation, assurance of quality, or licensing a similar product.
 - (d) It reveals cost or price information, production capacities, budget levels, or commercial strategies of Westinghouse, its customers or suppliers.
 - (e) It reveals aspects of past, present, or future Westinghouse or customer funded development plans and programs of potential commercial value to Westinghouse.
 - (f) It contains patentable ideas, for which patent protection may be desirable.
- (iii) There are sound policy reasons behind the Westinghouse system which include the following:
- (a) The use of such information by Westinghouse gives Westinghouse a competitive advantage over its competitors. It is, therefore, withheld from disclosure to protect the Westinghouse competitive position.
 - (b) It is information that is marketable in many ways. The extent to which such information is available to competitors diminishes the Westinghouse ability to sell products and services involving the use of the information.

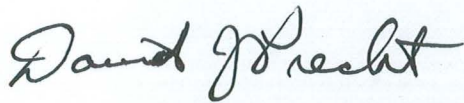

- (c) Use by our competitors would put Westinghouse at a competitive disadvantage by reducing his expenditure of resources at our expense.
 - (d) Each component of proprietary information pertinent to a particular competitive advantage is potentially as valuable as the total competitive advantage. If competitors acquire components of proprietary information, any one component may be the key to the entire puzzle, thereby depriving Westinghouse of a competitive advantage.
 - (e) Unrestricted disclosure would jeopardize the position of prominence of Westinghouse in the world market, and thereby give a market advantage to the competition of those countries.
 - (f) The Westinghouse capacity to invest corporate assets in research and development depends upon the success in obtaining and maintaining a competitive advantage.
- (iv) The information is being transmitted to the Commission in confidence and, under the provisions of 10 CFR Section 2.390, it is to be received in confidence by the Commission.
- (v) The information sought to be protected is not available in public sources or available information has not been previously employed in the same original manner or method to the best of our knowledge and belief.
- (vi) The proprietary information sought to be withheld in this submittal is that which is appropriately marked in the enclosed report, "Westinghouse Columbia Fuel Fabrication Facility Decommissioning Funding Plan" (Proprietary), for submittal to the Commission, being transmitted by Westinghouse letter, LTR-RAC-15-32 and Application for Withholding Proprietary Information from Public Disclosure. The proprietary information as submitted by Westinghouse is that associated with its decommissioning approach, costs and related licensing activities.

Public disclosure of this proprietary information is likely to cause substantial harm to the competitive position of Westinghouse because it would enhance the ability of competitors to address similar regulatory and licensing issues without commensurate expenses. Also, public disclosure of the information would enable others to use the information to meet NRC requirements for licensing documentation without commensurate expenses.

The development of the decommissioning approach and funding plan described by the information is the result of an intensive Westinghouse effort and the expenditure of a considerable sum of money.

In order for competitors of Westinghouse to duplicate this information, similar technical and procedural programs would have to be performed and a significant manpower effort, having the requisite talent and experience, would have to be expended.

The averments of fact set forth in this Affidavit are true and correct to the best of my knowledge, information, and belief:

A handwritten signature in black ink, reading "David J. Precht". The signature is written in a cursive style with a large, stylized "D" and "P".

David J. Precht, Vice President
Columbia Fuel Operations
Westinghouse Electric Company LLC

PROPRIETARY INFORMATION NOTICE

Transmitted herewith is a proprietary version of a document furnished to the NRC in connection plant-specific decommissioning information, and may be used only for that purpose. A non-proprietary version of the enclosure is essentially blank pages, and therefore is not provided.

COPYRIGHT NOTICE

If any documents transmitted herewith bear a Westinghouse copyright notice, the NRC is permitted to make the number of copies of the information contained in this report which are necessary for its internal use in connection with review of the submittal, "*Westinghouse Columbia Fuel Fabrication Facility Decommissioning Funding Plan*" subject to the requirements of 10 CFR 2.390 regarding restrictions on public disclosure to the extent such information has been identified as proprietary by Westinghouse, copyright protection notwithstanding. Copies made by the NRC must include the copyright notice in all instances and the proprietary notice if the original was identified as proprietary.
