Subject: Proposed FPL Expansion

To whom it may concern,

I recently read the article regarding FPL expansion published on 6 May 2015 in the Miami Herald. Throughout the past year I have learned and read extensively about Florida Power and Light, and listened to Mayor Stoddard's comments on the effects of power line construction. As a student of MAST Academy and the Cambridge program I completed two projects connected to this matter. I am fearful of the monopolistic and lobbying power FPL has managed to obtain in our city. I believe the proposed FPL expansion should be rejected as it brings along a plethora of both seen and unpredictable consequences. I hope that the Nuclear Regulatory Commission values safety or profit.

Regards,
Jordan Oria
