John,

It was nice speaking with you earlier. As discussed, Alaron received Sealed Sources from Washington Radiology for disposal. The sources consisted of:

- (4) Cs-137 check sources at 1 uCi each
- (1) Cs-137 vial source at 205.8 uCi (undecayed)
- (1) Cs-137 rod source at 0.5 uCi (undecayed)
- (1) Co-57 vial source at 5.45 mCi (undecayed)
- (1) Co-57 ruler source at 460 uCi (undecayed)
- (1) Co-57 marker source at 291 uCi (undecayed)

This material came to us in a 5 gallon Type A container. Manifest # AL-2015-075.
Receipt Date: 4-30-15. Alaron incoming shipment #: 05-0267.

Kindest Regards,

--
