Readiness for NRC Supplemental Inspection for a Security Greater-Than-Green Finding

Reference: 1) Letter from U.S. Nuclear Regulatory Commission's (NRC) to Monticello Nuclear Generating Plant (MNGP), "Final Significance Determination of a Greater than Green Finding and Notice of Violation; NRC Inspection Report 05000263/2015403," dated February 26, 2015

In the NRC's final significance determination letter (Reference 1), the NRC staff notified Northern States Power Company, a Minnesota corporation (NSPM), d/b/a Xcel Energy, of a Security greater-than-green finding and notice of violation which would require a supplemental inspection. This letter is to inform the NRC staff that NSPM is ready for the supplemental inspection at the MNGP.

Investigations have been completed to determine the root and contributing causes of the performance deficiency associated with the finding. The extent of condition and extent of cause for the performance deficiency have also been evaluated. Corrective actions have been developed to address the root and contributing causes.
