Mr. Ramsey,

Attached are updates to Attachments I and IV of the SNM 1373 license, as discussed with you earlier this week.

I hope that these plus the other material sent to you earlier, primarily involving the companion license R-110, will bring the SNM 1373 license up to date. Note, these changes will be effective June 22, 2015.

Sincerely,

Jay F. Kunze, PhD, PE, CHP
Reactor Administrator.
