Dear Mr. Crooks,

In order to consider an application to add Dr. Ravalese to the license for a 35.600 use, he would need to complete the third pathway of documented experience, "3. Training and Experience for Proposed Authorized User" as indicated on the NRC Form 313A(AUS) (i.e., since the board certification does not include the words "AU eligible"). Since he completed his training in the 1990's, please describe continuing education in the area of therapy machine uses. This may include teletherapy, gamma stereotactic, and accelerator experience.

Please re-submit Dr. Ravalese's training and experience as described above. Please note that you may not reply to this letter by return e-mail. Your reply must be in writing by letter, facsimile (610-337-5269), or signed pdf. If we do not receive a reply from you within 30 calendar days from the date of this e-mail, we will assume that you do not wish to pursue your application. Thank you for your assistance,
