

## CONVERSATION RECORD

NAME OF PERSON(S) CONTACTED OR IN CONTACT WITH YOU Ramon Davila	DATE OF CONTACT 05/28/2015	TYPE OF CONVERSATION	
E-MAIL ADDRESS ramondavila@siemens.com	TELEPHONE NUMBER (865) 332-6594	<input type="checkbox"/> E-MAIL	<input type="checkbox"/> INCOMING
		<input checked="" type="checkbox"/> TELEPHONE	<input type="checkbox"/> OUTGOING
ORGANIZATION PETNET	DOCKET NUMBER(S) 030-38230		
LICENSE NUMBER(S) 41-32720-03 (cyclotron-production) and 41-32720-04MD (nuclear pharmacy)	CONTROL NUMBER(S) 586185 586189		
SUBJECT PETNET's 4/13/15 response to our 4/9/15 letter requesting additional information about PETNET's notification of the NRC that PETNET had ceased principal activities under both licenses, their plans to terminate both licenses, and submittal of a decommissioning plan.			
SUMMARY AND ACTION REQUIRED (IF ANY) Please submit the following additional information:  During our April 9, 2015, conversation we asked you to describe any planned changes to decrease or limit the radiation safety program as a result of placing material in storage, e.g., dosimetry program, training program, calibration services, etc. You response included, but was not limited to, a statement that PETNET had ceased radiation and contamination surveys, and its audit program.  Since you still have authorization to possess and store licensed material, some level of radiation and contamination surveys, and audit programs should remain active until the licenses are terminated. Please submit a description of a program for conducting periodic radiation and contamination surveys, and a description of an audit program until the licenses are terminated  Both licenses authorize an unsealed form of hydrogen-3. Please describe the current inventory of tritium under both licenses. This inventory should include material in storage, contamination, waste, etc. Also, describe any disposal pathways (both air and/or liquid effluent) that have been, or will be used for this material.
