SUBJECT: REQUEST FOR ADDITIONAL INFORMATION, UNERTL OPTICAL COMPANY
INACTIVATION REQUEST DATED MAY 27, 2015

Dear Mr. Green:

Based on your conversation with the NRC on May 27, 2015, you have asked for the inactivation of your Registration Certificate NR-1200-D-101-E. Please provide the following information:

- The total number of products sold; the number of products still in use;
- The services (including source replacement and availability) the registration certificate holder will still provide to users of the product or the identification of an entity that will provide services;
- A commitment that the registration certificate holder will no longer commercially distribute the product; and
- Verification that no changes were made to the product since its initial registration or last amendment. If changes have been made, then the new information must be incorporated into the inactivated certificate.

Please be aware that you may request that certain portions of your submittal to the NRC be withheld from public disclosure as proprietary information. To do this, you must execute an affidavit as specified in 10 CFR 2.390. You must list all portions that you wish to be held proprietary, along with your reasoning as to why that is appropriate.

Please submit the requested information within 30 calendar days of the date of this letter. If we have not received complete information within 30 days, we will consider your request as having been abandoned by you. This is without prejudice to the submission of a complete new request.
