The slides are working just fine on my computer, so that is a good sign. I'll make sure to keep the first slides a surprise. Although our new part-time members are having a separate session at TWFN that morning to take care of some administrative matters, I have been encouraging Judge Baratta to send any that are finished with their paperwork down to the PDC to hear your talk.

Let me know if there is anything further you need.

Paul: in the message below is my slide show. if you print them off for the attendees, please leave off the first two slides with my "joke" ... and i'll turn to the first slide after i thank you for the introduction and ask about how many folks read doonesbury.

I'm looking forward to the session with your folks.
