**Subject:** Lost Creek LC11.2

John,

In answer to your query on the status of the Lost Creek submittal pursuant to License Condition 11.2, the annual ALARA audit (i.e. annual review of the radiation protection program) had been completed (November 21, 2014) but not yet submitted. The calculation of the dose to the public (LC12.10b & c) is incomplete. This is due to the pending response from NRC to Lost Creek's reply (January 16, 2015) to the TER (November 3, 2014) requesting additional information on LC12.10.

The submittal of the report is awaiting the outcome of the proposed method of calculation of dose to the public.
