Dear Dr. Conner:

This refers to your letter dated June 1, 2015, signed by your business manager, Christopher M. Conner, describing a delay to the previously proposed asset purchase transaction that was planned for June 1, 2015. Until we received this letter, the most recent information we had from you described a two - step change of control transaction that was expected to occur on or about June 1, 2015. We previously consented to this transaction in our letter to you dated April 27, 2015.

We understand that the two-step process is now expected to be eliminated and that the asset purchase will consist of a single step and only require your NRC license no. 13-26508-01 to be transferred once. Closing may occur on July 1, 2015, or on August 1, 2015, according to your letter.

**It is important to note that, upon the completion of the assets purchase agreement and settlement on a transition date, the remaining step in the transaction process will take place and the name on your license will need to be changed by us.**

**Please submit a letter to us making the name change amendment request by preparing a written business letter, addressed to my attention at the above address, as "additional information to control number 586949." Note that this is a different control number than you have used previously. You may model this letter as you have prepared the others submitted for the changes in control thus far.**

**It is especially important that this request be in writing, currently dated, and contain the authorized signatures of management representatives for both The Imaging Center and IOM Health System, L.P., d/b/a Lutheran Hospital of Indiana.**

If you have any questions concerning this matter please contact me at either (630) 829-9841 or (800) 522-3025, ext. 9841. My fax number is 630-515-1078. My email address is [colleen.casey@nrc.gov](mailto:colleen.casey@nrc.gov). As a reminder, when contacting or corresponding with us, please always include your NRC license no. 13-26508-01 to permit us to identify your files more quickly and serve you better.

R. Conner
