Amendment Requested to NRC License 11-35192-01

Mr. Torres:

We would like to request an additional isotope be added to the license listed above.

Our PT provider cannot send us samples without every isotope in their samples listed on the license. We request the addition of:

Cs-137
Liquid form
Maximum total at any one time – 1 microcurie total

The specific sample that we will be ordering is

ERA, Golden, CO 80403
Part 809, GroSS Alpha/Beta
Gross Alpha (as Thorium-230) – 7-75 pCi/L
Gross Beta (as Cesium-137) – 8-75 pCi/L

(Thorium-230 is already on our license)

I hope that you will find everything in order. If you have any questions, or need additional information, please do not hesitate to contact me.

Thank you for your consideration.

Sincerely,

Gene Solomon
Quality Assurance Officer

Subject: RE: Anatek Labs - Rads License

Hi Gene,

You are correct, to purchase the 809 gross alpha beta standard you will need to have Cs-137 added to your RML. Sorry about the inconvenience, Colorado is an agreement state so they have it written in to our licence that we can not distribute to anyone that does not have a RML with the correct isotopes listed on it.

Thanks.

To order 809/759, would we need to add Cesium-137?

Subject: Re: Anatek Labs - Rads License

Hi Gene,
 Your RML has been reviewed and added to your account.

A comment from our RSO was, your license only allows you to purchase PT catalog numbers 811, and 807. You will need to have isotopes added to your license in order to purchase any of the other PT's standards we offer. If the isotope or isotopes that is listed in our catalog under the PT description is not on your license then you'll need to get those isotopes added by the NRC.

Thanks!
 Heidi

Subject: Anatek Labs - Rads License

Hi folks —

I spoke with Heidi today, and she confirmed that we have an account set up with you.

We are interested in purchasing RadChem PTs. Accordingly, here is a copy of our NRC Materials License for your review.

Please let me know if you have any questions or need additional information.

Thank you.

Hi Carol,

Can you please set up this amendment request and assign it to me ?? I am working on another amendment request for the licensee and will attempt to work them consecutively.

I have cc'd Mr. Solomon on this e-mail.

Thanks so much.

Michelle

Mrs. Hammond –

Attached please find an amendment request to our Materials License, number 11-35192-01.

As mentioned below, we have a different amendment request in process (mail control number 586614). I was hopeful that perhaps these requests could be merged, to shorten the turn-around time on this amendment.

I am also attaching the emails from ERA about the need to have isotopes on the license to order the PT samples.

If you have any questions or need additional information, please do not hesitate to contact me.

Thank you for your consideration.

Mr. Solomon:

Your amendment request (mail control number 586614, Anatek Labs) is being reviewed by Michelle Hammond. Please send your additional amendment request directly to her for adding a source to the license. Mrs. Hammond will review your request and will determine if both licensing actions can be merged (If the source is exempt quantity in accordance with 10 CFR 30.18 and 10 CFR 30.71, then the manufacturer should be able to ship the source to you without the need to amend the license).

Please note that this week all our staff are in training so email will be the best way to communicate with Mrs. Hammond.

This is to acknowledge the receipt of your:

☒ LETTER and/or ☒ APPLICATION DATED: 06/02/2015

The initial processing, which included an administrative review, has been performed.

☒ AMENDMENT ☐ TERMINATION ☐ NEW LICENSE ☐ RENEWAL

- ☐ There were no administrative omissions identified during our initial review.
- ☐ This is to acknowledge receipt of your application for renewal of the material(s) license identified above. Your application is deemed timely filed, and accordingly, the license will not expire until final action has been taken by this office.
- ☐ Your application for a new NRC license did not include your taxpayer identification number. Please fill out NRC Form 531, located at the following link:

<http://www.nrc.gov/reading-rm/doc-collections/forms/nrc531.pdf>

Send the completed NRC Form 531, by facsimile, to the following number: (301) 415-5387

A copy of your action has been emailed to our License Fee and Accounts Receivable Branch, in our Headquarters office in Rockville, MD. You will be contacted separately if there is a fee issue involved.

Your application has been assigned the above listed **MAIL CONTROL NUMBER**. When calling to inquire about this action, please refer to this control number. Your application has been forwarded to a technical reviewer. Please note that the technical review, which is normally completed within 180 days for a renewal application (90 days for all other requests), may identify additional omissions or require additional information. If you have any questions concerning the processing of your application, our contact information is listed below:
