Ashburn, VA 20147

SUBJECT: GEOCONCEPTS ENGINEERING, INC., LICENSE AMENDMENT, CONTROL
NO. 586740

Dear Mr. Lewis:

This refers to your license amendment request dated April 30, 2015. Enclosed with this letter is the amended license.

From the documentation of training of Eaton King that you provided, it appears that he took the required training on-line. This training may not meet the NRC's criteria for RSO training.

Please be reminded that condition 19 of your license requires that before being named RSO, any future RSO successfully complete nuclear gauge safety and RSO training. It is the licensee's responsibility to ensure that such training meets the criteria for RSO training that is specified in NUREG 1556, Volume 1, Revision 2. This document is available from the NRC website at www.nrc.gov.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

T. Lewis
