Subject: Calumet Montana Refining LLC - Request for Additional Information

Good Afternoon Joe: I hope all is well. I know it has been a long time but guess what I'm doing?! I'm trying to complete the review of your response received March 30, 2015, to our request for additional information dated December 29, 2014, so I can issue your renewal by the end of the month.

I have a couple of more questions, Joe before I can issue the renewal:

1. Please clarify if you and other employees who use the gauge wear personnel dosimetry. If not, please submit an evaluation demonstrating that unmonitored individuals are not likely to receive, in one year, a radiation dose in excess of 10% of the allowable limits in 10 CFR Part 20. (<http://www.nrc.gov/reading-rm/doc-collections/cfr/part020/part020-1201.html>).
2. Please note that Amendment No. 05, license condition (LC) 17 of your license lists services that shall not be performed by you the licensee. Please confirm this list. If you are proposing to perform specific services as listed in LC 17 of your license, please submit a copy of the certificate of training (individual certificate of training) outlining that the licensee can perform these services and provide information listed in Appendix N of NUREG-1556, Vol. 4 (<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v4/>) to perform this work "in-house".

Joe, please submit your response to the above as soon as practical but no later than Monday, June 29, 2015. The sooner you submit your response, the sooner I can issue the renewal to you. Please do not hesitate to contact me if further clarification is needed.

Warmest Regards,

Ms. Jacqueline "Jackie" D. Cook
