Subject: RE: Shaw Pipeline - Request for Additional Information for Amendment Request to License # 35-23193-03

Importance: High

In addition Shane, please have your response to my request for additional information to come from a management representative or previous Radiation Safety Officer (RSO) since you are not the RSO of record yet.

Thanks again,

Jackie

Subject: RE: Shaw Pipeline - Request for Additional Information for Amendment Request to License # 35-23193-03
Importance: High

Good Afternoon Shane: Please expand Section IX: Lay Barge Radiography procedures in your O&E Procedures Manual to grant radiographic personnel with stop work authority necessary to protect personnel during normal operations, source disconnect or other emergency.

Please respond to my request for additional information above by 12:00 noon tomorrow. I apologize for the short delay but if you can get your response to me by the time requested, it will be greatly appreciated.

Sincerely,

Ms. Jacqueline "Jackie" D. Cook

Good Afternoon,

Jackie Cook has been assigned to review your amendment. She is currently working on it. Your request was received on March 9, 20015. Amendments can take up to 90 days to process.

If you have any additional questions you can contact Jackie directly at Jackie.Cook@nrc.gov or 817-200-1132

Carol,

I haven't introduced myself to you before, my name is Shane Owens and I will be taking over all RSO responsibilities from Johnny Peters.

I was just wanted to see if I could get a update of the amendment request on our license. The reason I ask is because we will need the lay barge approval so we can use it in Louisiana. (Oklahoma license doesn't recognize lay barge and Louisiana will not let you work on a lay barge unless its specifically on your license)

I know it should be getting close but our General Manager is getting "Antsy" because that part of the job will be coming up soon.

Thanks, and if you're in Texas I hope you didn't get hit with all the flooding we've had the last weeks...
