Reference: [1] Federal Register Docket ID: NRC-2014-0233, "List of Approved Spent Fuel Storage Casks: Holtec International HI-STORM 100 Cask System, Certificate of Compliance No. 1014, Amendment No. 8, Revision No. 1, Published February 5, 2015

Dear Mr. Goshen:

Through recent discussions with you and other NRC staff, it was requested that users of the Holtec International HI-STORM 100 System CoC Amendment 8 users confirm that the changes proposed in Revision 1 to Amendment 8 (as published in Reference [1]) did not constitute a backfit. Attached is an email from Exelon Nuclear confirming that Revision 1 to Amendment 8 does not constitute a backfit for the Dresden Nuclear Power Station ISFSI and the Quad Cities Nuclear Power Station ISFSI.

If you have any questions, please contact me at (856)-797-0900 ext. 3951.

Sincerely,

Kimberly Manzione
Licensing Manager
Holtec International
