

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**
REGION IV
1800 E. LAMAR BLVD.
ARLINGTON, TX 76011-4511

June 22, 2015

Ms. Karen A. Moushon
Radiation Safety Officer
Voith Fabrics Shreveport, Inc.
7133 West Park Road
Shreveport, Louisiana 71129

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION

Ms. Moushon:

The Nuclear Regulatory Commission (NRC) has completed the technical review of the renewal application dated March 18, 2015 of license number 17-26958-01, and additional information is needed. Please provide the response in a signed and dated letter, in licensee's letterhead, within 30 days from receipt of this letter, and make reference to mail control number 586334.

1. The current license is issued to "Voith Fabrics Shreveport, Inc." while the renewal application states "Voith Paper Fabric and Roll Systems, Inc." Have company management complete the enclosed form titled "Change of Control and/or Change of Ownership" and indicate the date the transaction occurred.
2. Provide the following commitments:
 - A. We will either possess and use, or have access to and use, a radiation survey meter that can detect alpha particles in the event of an incident.
 - B. Physical inventories will be conducted at intervals not to exceed 6 months, to account for all sealed sources and devices received and possessed under the license.
 - C. Either we will maintain, for inspection by NRC, documentation demonstrating that unmonitored individuals are not likely to receive a radiation dose in excess of 10% of the allowable limits in 10 CFR Part 20 or we will provide dosimetry processed and evaluated by a NVLAP-approved processor that is exchanged at a frequency recommended by the processor.

- D. Leak tests will be performed at intervals approved by the NRC or an Agreement State and specified in the Sealed Source and Device Registration Sheet. Leak tests will be performed by an organization authorized by NRC or an Agreement State to provide leak testing services for other licensees or using a leak test kit supplied by an organization authorized by NRC or an Agreement State to provide leak test kits to other licensees and according to the kit supplier's instructions.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

A handwritten signature in blue ink, appearing to read "Roberto J. Torres".

Roberto J. Torres, M.S., Senior Health Physicist
Nuclear Materials Safety Branch B

**Change of Control and/or Change of Ownership
(Includes Change of Name)**

10 CFR 30.34(b) states that "no license issued or granted pursuant to the regulations...nor any right under a license shall be transferred, assigned or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, through transfer of control of any license to any person, unless the Commission shall...find that the transfer is in accordance with the provisions of the Act and shall give its consent in writing. Although not specifically addressed by 10 CFR 30.34, licensees undergoing a name change may also be affected by this regulation.

Control over licensed activities can be construed as the authority to decide when and how a license (licensed material and/or activities) will be used. A change of ownership may be an example of a change of control. The central issue is whether the authority over the license has changed. In all cases, determining whether a change of control has taken place or whether a change is in name only is the Commission's responsibility.

Licensees must notify the Commission when they are undergoing a possible change of control and/or a change of name. While this notification is not required within a certain time frame, NRC needs adequate time to review the submittal to ensure that the transfer is in accordance with the regulations.

In order to process your request for a change of control/ownership and/or a name change, the information on the following pages is required. Our fax number is (817) 200-1188. If you have any questions regarding our discussion or this fax, please contact me. When responding to this fax, please include the license, docket, and mail control numbers, located at the top of this page as well as the following pages. Thank you.

Definitions: **Transferee:** A transferee is an entity that proposes to purchase or otherwise gain control of an NRC-licensed operation.

Transferor: A transferor is an NRC licensee selling or otherwise giving up control of a licensed operation.

Enclosure

Information Required for Change of Control and/or Change of Ownership
(Includes Change of Name)

Source: NUREG-1556, Volume 15

Please provide the following information concerning changes of control (transferor and/or transferee, as appropriate). If any items are not applicable, state so.

1. Provide a complete description of the transaction (i.e., transfer of stocks or assets, or merger). Indicate whether the name has changed and include the new name. Include the name and telephone number of a licensee contact who NRC may contact if more information is needed.

A. Description of the transaction:

B. ☐ No name change

☐ New name of licensed organization: _____

C. ☐ No change in contact

☐ New contact: _____

☐ New telephone number: _____

2. Describe any changes in personnel or duties that relate to the licensed program. Include training and experience for new personnel.

A. ☐ No changes in personnel having control over licensed activities.

☐ Changes in personnel having control over licensed activities (e.g. officers of a corporation):

B. ☐ No changes in personnel named in the license.

☐ Changes in personnel named in the license (e.g. RSO, AUs) - include training, experience and responsibilities:

3. Describe, in detail, any changes in the organization, location, facilities, equipment or procedures that relate to the licensed program.

☐ Organization:

☐ Equipment:

☐ Location:

☐ Procedures:

☐ Facility:

☐ Not applicable

4. Describe the status of the surveillance program (i.e., surveys, wipe tests, quality control) at the present time and the expected status at the time that control is to be transferred.

A. Description of the status of all surveillance program:

B. Surveillance Items & Records: calibrations, leak tests, surveys, inventories, and accountability requirements will be current at the time of transfer

☐ Yes ☐ No (explain)

5. Confirm that all records concerning the safe and effective decommissioning of the facility will be transferred to the transferee or to NRC, as appropriate. These records include documentation of surveys of ambient radiation levels and fixed and/or removable contamination, including methods and sensitivity.

Records transferred to:

☐ New licensee ☐ NRC for license termination ☐ Not applicable

6. Confirm that the transferee will abide by all constraints, conditions, requirements and commitments of the transferor or that the transferee will submit a complete description of the proposed licensed program.

_____ will abide by all constraints, conditions,
(transferee company)
requirements and commitments of _____
(transferor company)
